Introduction

Chocolate Graphics International Pty Ltd is the owner of an internationally patent protected technology that allows us to emboss high-definition graphics on chocolate with chocolate. Any image, message or photograph can now be embossed, with unprecedented clarity on chocolate, and best of all, the final product is 100% made of chocolate.

These innovative products can be made in almost any flat shape, size, and flavour in many different colours, making them ideal for a wide range of uses and markets.

With the international chocolate market currently worth around \$US 75.5 billion per annum, the opportunity for this product is endless... the market is huge... And there is no other product that can deliver the same high definition and quality.

Background

In 1988 an Australian inventor conceived the original Chocolate Graphics process. His method was crude and extremely slow, and unfortunately no positive marketing action was taken until 1996 when three Australian businessmen purchased the rights to the process.

In July 1999 the patents, applications and manufacturing rights were purchased by John Taylor, an experienced international entrepreneur who had kick-started many small businesses both in Australia and overseas.

A strategic focus and innovative marketing strategies were introduced to ensure that the future company became a profitable entity. By rebuilding the technology and redeveloping the intellectual property, including the registration of four new international patents, the Chocolate Graphics concept became a commercial reality.

Since that time the process has been significantly upgraded to incorporate state-of-the-art laser and automated technology, raising the production capability of a semi-automated Production Centre to 100,000 pieces per day (dependent on shape & size).

The company has now established Licensees in many countries throughout the globe, including: Alabama, Australia, Bahrain, California, Costa Rica, Cyprus, Germany, Greece, Japan, Kuwait, Malaysia, Mexico, National Capital Region, Netherlands, Newport Beach, New Zealand, Poland, Portugal, Qatar, Romania, Russia, Saudi Arabia, South Africa, Singapore, Spain, Tennessee, UAE, United Kingdom.

The Opportunity

The Chocolate Graphics team is extending to applicants with marketing and management expertise the opportunity to share in this chocolate success story by becoming part of the International Chocolate Graphics Group as a Licensee.

Chocolate Graphics Licensees benefit from an exceptional product and well trialled model, yet still have the flexibility and autonomy to develop their own business. Most importantly, the Chocolate Graphics process is so remarkably simple and straightforward that there is no need for prior technical experience.

In order to cater for international demand for the product, Chocolate Graphics has chosen to expand into international markets using a licensing strategy.

Under this strategy Chocolate Graphics Licensees benefit from:

- Access to the ultimate graphic promotional chocolate product, which offers :-
 - High definition graphic printing
 - 3D embossed graphics (3 levels of printing)
 - The option of multi-coloured graphics
 - The option of a centre filling
- The registration of patents internationally and nationally registered to protect both the manual and semi-automated manufacturing processes.
- Design and manufacture of production machinery - supported with detailed operational manuals.
- Provision of a well-designed and practical Production Centre, which is included in a package to appointed Licensees.
- The design of promotional programs, marketing and packaging concepts - along with an International website to drive business growth.

Under the licensing strategy Chocolate Graphics offers three levels of Licences (all levels will be discussed in detail later):-

- Production Centre (PCL)
- Regional Master Licence (RML)
- Master Licence (ML)

With *brand awareness* and *customer retention strategies* remaining the focus of marketing efforts worldwide, the Chocolate Graphics product and process is well positioned to achieve impressive sales revenue and excellent returns on investment.

The Market

The markets for the Chocolate Graphics product are limited only by your imagination. Below is an overview of some of the identified target markets.

Corporate Promotional Gifts

The business world has a continual requirement for products to assist with their marketing, promotional efforts and social events. Personalised chocolates provide a very cost-effective and memorable marketing tool.

The opportunities here are endless and include:-

- Banks for conferences and customer gifts
- Airlines for first class and lounge club members
- Shopping centres for promotions
- Multi-national companies for corporate functions, seminars, product launches and promotions
- Clubs for membership promotions
- Government departments for conferences
- Television and Radio Stations for promotions
- Car dealers as a gift with purchase and for product launches

Restaurants, Hotels and Catering Services

Restaurants and catering services are some of the most consistent areas of business, as they continuously require chocolates for their customers.

Included in this segment are hotels and motels for their dining tables, conferences, pillow chocolates, and special events. Restaurants often use the personalised chocolates as coffee accompaniments or as a topper for desserts.

Weddings

Personalised chocolates provide the bride & groom with a totally unique option for their wedding favours.

Some ways they have been used include:

- Unique guest gifts with photographs and (eg) thank-you messages from the bride & groom
- Personalised chocolate menus
- Special chocolates with the bride & groom's photographs and names served at the dining tables

Special Days

There are many special days throughout the year when friends, family and lovers use these unique chocolates as an expression of thought, love and congratulations.

Some of these days include:-

- Valentines Day
- Mothers and Fathers day
- New Years day and Religious Holidays
- National Holidays

Gifts

In this world of unlimited gifts, chocolates continue to dominate as a very popular option. Some occasions where personalised chocolates are used include:-

- Birthday celebrations
- Engagements & Anniversaries
- Corporate rewards
- Birth Announcements

Retail Market

Due to the growth in other market segments Chocolate Graphics has only recently entered the retail market. This market segment is considered to hold the most potential. Although there are no statistics available, this potential is limited only by your imagination and creativity.

The Licensing Structure

There are three levels of licensing available. Following is a brief overview of each of the entry points for a Chocolate Graphics Licensee:-

1. Production Centre Licence (PCL)

A Production Centre Licence is a licence to produce and supply the Chocolate Graphics product to an area of approximately 1 to 2 million people. Production Centres can be equipped with either manual or semi-automatic equipment.

The core business for a Production Centre Licence is:

- Restaurants and hotels
- Small to medium businesses
- Weddings & Anniversaries
- Annual Holidays – eg Valentines Day, New Year
- Special occasions
- In general, smaller volume orders

2. Regional Master Licensee (RML)

The Regional Master Licensee has the licence to supply the Chocolate Graphics product to a specific regional area. The Regional Master Licensee can also set up a structure of Production Centre Licences within their allocated territory.

A Regional Master Licensee is able to develop Chocolate Graphics markets within two or more countries or two or more states and has the option of running their own Production Centre in their region.

The Regional Master Licensee has a semi-automatic production facility with the capability of producing a large volume of product per day.

The core business for a Regional Master Licence is:-

- Large volume runs
- National accounts
- Corporate promotions
- Large Restaurants and Hotels
- The core clients of a PCL (see item 1) if none are appointed

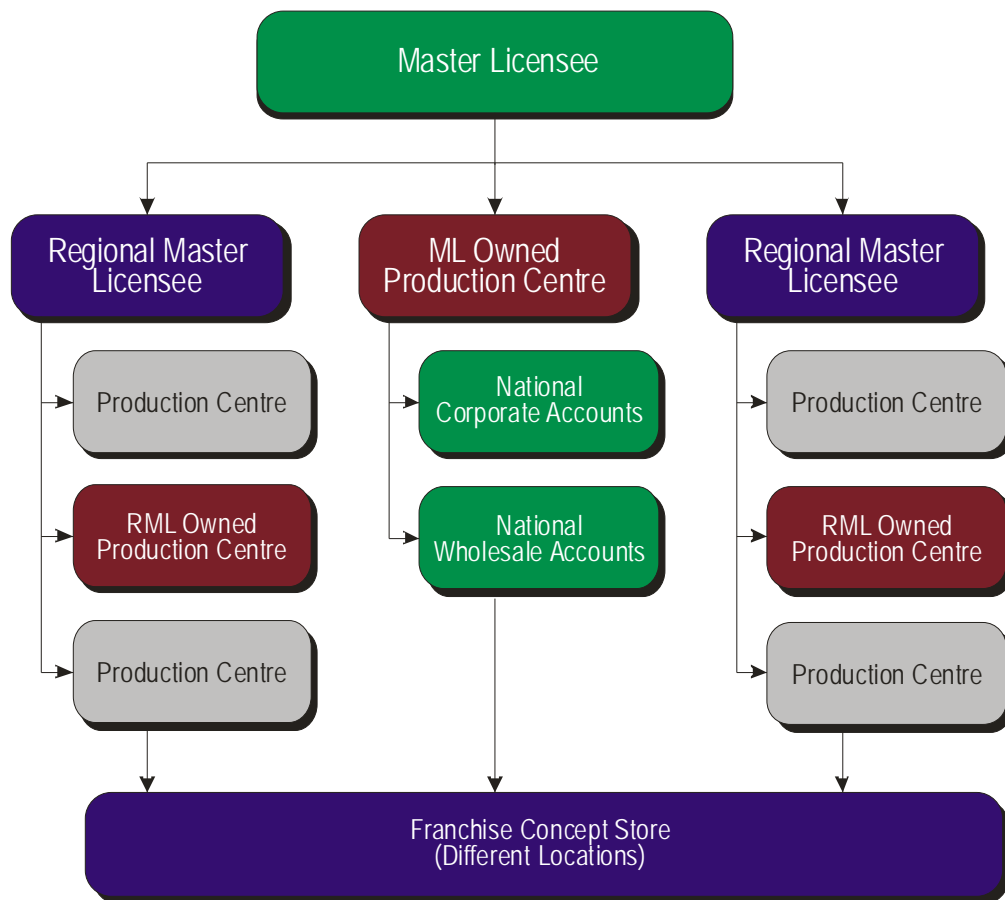

3. Master Licensee (ML)

The Master Licensee is the national headquarters set up to oversee the Chocolate Graphics industry within a country. The Master Licensee can choose, in agreement with Chocolate Graphics International, the distribution strategy to be adopted. The Licensee may choose to manufacture product from one central production facility, or diversify production by setting up a structure of Production Centres within their country.

If this licensing strategy is chosen, the Master Licensee's objectives will be to promote and sell licences within their country, and then provide ongoing support for this network.

Example Licensing Structure

These models will apply in large countries where different regions can be defined:-

Summary

The Chocolate Graphics product is unmatched in its uniqueness and quality. To our knowledge no product exists in the marketplace that compares with the Chocolate Graphics patent-protected technology of *embossing chocolate onto chocolate*.

Personalised chocolates have unlimited market potential. Whether you are interested at a local, regional or national level Chocolate Graphics International has a program that will train and support you to ensure your success.

We invite you to further review this exciting business opportunity by completing the Registration Form and signing the Confidentiality Agreement (NDNU) that are enclosed with this document. NON-DISCLOSURE AND NON-USE AGREEMENT (NDNU)

This Non-Disclosure and Non-Use Agreement (this "Agreement") is entered into

as of the : 200.....

by and between:

(the "Company")

Chocolate Graphics International Pty Ltd – ACN: 097220632

of: 26/50 James Street
Burleigh Heads 4220
Queensland
Australia

and

(the "Confidant")

Individual's Name

Company Name & Title (if a company)

.....

Address.....

.....

Country

The Company is in the business of marketing and licensing certain proprietary technology relating to a process and technique for the manufacture of chocolate products with raised designs, and the Confidant is in the business specified in Exhibit 'A' hereto.

In order to pursue the mutual business purpose specified in Exhibit 'A' (the "Mutual Purpose"), the Company and Confidant recognise that there is a need for the Company to disclose to Confidant certain confidential information of the Company. The Company is willing to disclose such confidential information, providing that it is used only for the Mutual Purpose and is protected from unauthorised use and disclosure.

Please sign here:.....

In consideration of the disclosure of such information by the Company, the Confidant agrees as follows:

1. Definition

This Agreement shall apply to all confidential and proprietary information disclosed by the Company to the Confidant, including - but not limited to -information listed in Exhibit 'A' (the "Confidential Information").

2. Non-Disclosure and Non-Use

The Confidant agrees to hold the Confidential Information in strict confidence and not to disclose the Confidential Information to any third parties, or use it for any purpose other than the Mutual Purpose, without the prior written consent of the Company. The Confidant may disclose the Confidential Information to its responsible employees, but only to the extent necessary to carry out the Mutual Purpose.

The Confidant agrees that all such employees must be bound by an appropriate agreement with the Confidant not to disclose such Confidential Information to third parties, including consultants, or to use it for any purpose other than the Mutual Purpose.

3. Exceptions

The Confidential Information shall not include any information that is already known to the Confidant at the time that it is disclosed to the Confidant, or which:

- (a) becomes publicly known through no wrongful act of the Confidant;
- (b) is rightfully received from a third party without restriction on disclosure and without breach of this Agreement;
- (c) is independently developed by the Confidant;
- (d) is approved for release by written authorisation of the Company;
- (e) is furnished by the Company to a third party without a similar restriction on disclosure; or
- (f) is disclosed pursuant to a requirement of a government agency or of law.

4. Ownership

The Confidant hereby acknowledges that all Confidential Information shall be owned solely by the Company and that the unauthorised disclosure or use of the Confidential Information will cause irreparable harm and significant injury that will be difficult to ascertain.

The confidant also agrees not to register nor use the Company name in any manner whatsoever until a Licence agreement is signed.

Please sign here:.....

Ownership cont ...

The use of the Company's name includes any advertising, printed material of any form, registration of companies, and purchase of Web Domains or Email addresses or names. Accordingly, the Confidant agrees that the Company shall have the right to obtain an immediate injunction enjoining any breach of this Agreement.

5. Return of Materials

Upon the written request of the Company, the Confidant will return to the Company all computer program code, documentation and other items representing the Confidential Information and all copies thereof in the Confidant's possession or control.

6. No License

The Confidant recognises and agrees that nothing contained in this Agreement shall be construed as granting any rights, by license or otherwise, to any Confidential Information disclosed pursuant to this Agreement.

7. Governing Law

This initial Confidentiality Agreement shall be governed by and construed in accordance with the laws of Queensland, Australia.

8. Term

This Agreement shall remain in effect for a period of ten (10) years from the date hereof.

9. Attorney's Fees

In any action to enforce this Agreement, the prevailing party will be entitled to its attorneys' fees in addition to any other recovery awarded.
